

BIKE ACTIVEWEAR/FITTING & SIZE

SIZE FIT

IT

La tabella indica la corrispondenza delle taglie Dotout con le misure in centimetri del proprio corpo.

Per determinare la taglia con precisione, le misure vanno prese sul corpo nudo; il metro deve aderire perfettamente alla pelle, senza stringere.

EN

The chart shows the equivalent of Dotout sizes in centimeters.

To ensure you get the right size, it's best to take your body measurements without any clothes on.

The tape measure should be flat against your skin without pulling it too taut.

PERFORM FIT

IT

Vestibilità disegnata sulla base dell'ergonomia in sella, per ciclisti esigenti.

EN

A fit designed around ergonomic performance in the saddle for demanding riders.
